Curriculum Vitae

M. Rivaldi Mahari

QA Engineer & Data Analyst

Information Technology Systems graduate from Institut Teknologi Bandung with hands-on experience in quality assurance, data analysis, web development, system analysis and AI-based image classification. I turn requirements into test cases, read systems and data to find what's wrong or what matters, and work with developers and stakeholders to ship things that work.

EDUCATION

B.S. Information Technology Systems
Institut Teknologi Bandung
2022 – 2026

TECHNICAL SKILLS

Testing
Manual testing · Test cases · Selenium · Playwright · UAT · Bug reporting

Data & AI
Python · SQL · pandas · scikit-learn · YOLO11 · OpenCV · Plotly

Web & tools
JavaScript · HTML/CSS · FastAPI · PHP · Java · Git & GitHub · Docker · CI

Analysis & design
Requirements · User flows · Database design · UI/UX prototyping

SOFT SKILLS

Public speaking · Negotiation · Time management · Project management · Team collaboration · Problem solving

Work experience

Quality Assurance — Nov 2025 – Jan 2026
PT Akhdani Reka Solusi · Bandung

- Created and ran test cases for the SIMPUS web application, based on system requirements and user workflows.
- Built and executed automated tests with Selenium to cut repetitive manual testing.
- Found, documented and reported bugs, then worked with developers to verify fixes.

Quality Assurance — Jul 2025 – Sep 2025
PT Bringin Inti Teknologi · Jakarta

- Ran functional and usability testing in a 3-person QA team for Bee-RP, an employee management system for projects, attendance, leave and performance reports.
- Led QA for TrackMate, an employee task-tracking web app, in a 2-person team.
- Worked with developers and stakeholders to validate fixes and get ready for UAT.

Data Analyst Intern — Jun 2024 – Jul 2024
PT Sarana Pactindo · Bandung

- Built a web-based billing forecast system and analysed data to support updates for two company websites.
- Gathered requirements with two stakeholders to improve accuracy, interface and efficiency.

STEM Tutor (Maths & Physics) — Mar 2023 – Apr 2023
Private tutoring · Bandar Lampung

Selected projects

KukangSort AI — Final-year project · 2026
Web app that automatically sorts Sunda slow loris camera-trap photos so researchers don't have to check every frame by hand. One YOLO11 model splits images into kukang, unknown and delete; a second labels behaviour (eating, moving, grooming).
YOLO11-cls · Python · FastAPI · OpenCV · JavaScript · Docker

Retail Inventory AI
Forecasts next-week demand for 300 products from 1 million real transactions and recommends reorder quantities.
Python · FastAPI · React · CI

King's Hand
Project-monitoring web app with approvals and automatic alerts for late or overspending projects; 21 Playwright tests.
JavaScript · Playwright · CI

West Java Tourism Analytics
Dashboard with K-Means area groups and data-quality scoring; occupancy model beats simple baselines by 20%.
pandas · scikit-learn · Plotly

Plants vs. Zombies (Java)
Java Swing game playable in the browser via WebAssembly; added 119 unit tests and an end-to-end bot test.
Java · OOP · WebAssembly · CI

Organisations & activities

Incubator IT / DPP · Himpunan Mahasiswa Informatika — Aug 2023 – Aug 2024
Planned and delivered projects, delegated across teams, tracked progress and risks, and kept stakeholders informed.

Teaching Assistant, Pancasila · ITB
Led discussions, graded assignments and kept students engaged.

Extra-campus Committee · OSKM ITB — Aug – Oct 2023
Logistics, budgeting, external coordination, promotion and participant registration.
